Govt. Degree College Vailoo Larnoo, Anantnag understands the importance of using digital technology in order to create an environment that promotes the culture of sustainability, ingenuity, and efficiency. The institutional e- governance makes a sync with the goals and objectives of the government. It streamlines and improves the delivery of government services to streamline and improve the delivery of employee and educational services. The college employs various measures to minimize paper usage by adopting various new digital alternatives for the welfare of faculty, staff and students. The college employs various measures to minimize paper usage by adopting various new digital alternatives for the welfare of faculty, staff and students. The e-Governance initiatives adopted by the college includes:

JKHRMS: JKHRMS is a web based solution which provides an easy access to employee related services like Employee Performance Monitoring (EPM) and Property Return System (PRS) on a single platform. <https://hrms.jk.gov.in/>. JK Human Resource Management System (JKHRMS) is a portal wherein all JK Govt. employees are registered and all the employees of the college are registered on the said portal. It is a unified platform for access to **salary slip, Fund, Income tax Statement, SLI subscription** etc. The employees can register themselves on JKHRMS through their CPIS number which they will be able to check, correct and update their basic as well as other service related details only after approval by the principal (DDO). Thus, it is ensured that all employee related matters are handled in a **NO-PAPER MODE** using JKHRMS Portal.

JK SPARROW: The Smart Performance Appraisal Report Recording Online Window (SPARROW) was implemented by the JK E-Governance Agency, Information Technology department in collaboration with National Informatics Centre and the General Administration Department. It handles the yearly APR's of the employees of the college and ensures that the **APR's** of the employees are generated, submitted, reported and reviewed well in time. **DDO** (Principal) of the institution acts as a **Reporting Officer**. The APR would move from Reporting

Officer to Reviewing Officer and finally to the Accepting Authority in a time bound and seamless manner.

JK SAMARTH E-GOV: The allocation of seats to students for UG admission programs in different colleges is implemented through JK Samarth Portal having 40 applications under nine modules.. The admission committee members as well as students seeking admissions are required to register themselves on the Samarth portal to get admission in the college. The main objective of JK SAMARTH is to facilitate the efficient implementation of various educational schemes and to provide a seamless interface between students, educational institutions, and the government.

Aadhar Based Attendance:- Aadhaar-based attendance" refers to the system of recording and tracking attendance using the Aadhaar card or Aadhaar number.. This system is typically used in educational institutions, government offices, and other organizations to monitor attendance more efficiently and reduce the possibility of fraudulent attendance records. All the employees of the college are making their attendance on the Aadhar based machine installed in the college.

DHE feedback system: - A 3-tier feedback system typically refers to a structured approach of collecting and analyzing feedback from multiple sources in order to make informed decisions or improvements. The department of higher education came up with a three 3-tier feedback system whereby the students, faculty and college provide feedbacks to the higher ups. The DHE feedback is accessed using the url <https://dhe.nic.net.in/>

Payment (Paysys):- JK Payment System (PayManager) provides the common and integrated platform for DDO's to prepare the all types of bills for booking of expenditure. It is also the Pay Bill Preparation System which meant for the Employees of the Government of Jammu & Kashmir. The Software not only provides the facilities for Pay bill Preparation but also Preparation of DA Arrear, Bonus, Arrears and Leave encashment Bills. The college is using the paysys since its inception.

Budget, Estimation, Allocation & Monitoring System (BEAMS):- It is an application for online budgeting & flow of resources. It is designed to capture flow

of funds to each individual project under execution on real time basis. Citizens can view projects that are being funded in their area, so that they can actively participate in the process of development. The college is using this portal for the budget related service. The url for BEAMS is <https://beams.jk.gov.in/>

Jammu and Kashmir Public Financial Management System: - JKPFMS stands for Jammu and Kashmir Public Financial Management System. It is an online platform launched by the Department of Finance, Government of Jammu and Kashmir, to manage the state's finances in a more transparent, efficient, and accountable manner. The system aims to improve the overall financial management processes and facilitate better decision-making. The College is using the portal for the transfer of funds after purchases.

Examination: - The examination forms, Datasheets, Admit cards, attendance sheets and results are generated online by the affiliating university and the college have separate window for the execution of these operations. The link for accessing the same is [E - Transit \(uok.edu.in\)](http://E-Transit(uok.edu.in)).

Soul2.0:- Software for University Libraries (SOUL) is an state-of-the-art integrated library management software designed and developed by the INFLIBNET Centre based on requirements of college and university libraries. It is a user-friendly software developed to work under client-server environment. The software is compliant to international standards for bibliographic formats, networking and circulation protocols. After a comprehensive study, discussions and deliberations with the senior professionals of the country, the software was designed to automate all housekeeping operations in library. The college is using the Soul2.0 for all the housekeeping operations of library.

To Conclude: - The various institutional e-governance strategies emphasize transparency in institutional operations and accountability for achieving goals of transparency, sustainability and **PAPER LESS** culture
